Energy development is the field of activities focused on obtaining sources of energy from natural resources. These activities include production of conventional, alternative and renewable sources of energy, and for the recovery and reuse of energy that would otherwise be wasted. Energy conservation and efficiency measures reduce the demand for energy development, and can have benefits to ...

Unemployment levels reveal that we already have enough potential workers. Increasing employment opportunities and improving wages would increase funds paid to social security. Social security systems are artificial, so adjustments for changes such as a reduction in the number of potential workers can be made.. In the USA, a pea-and-shell game is being played on taxpayers.
