

ethics on health care pdf

Because beneficence is a fundamental principle of healthcare ethics, ethical egoism (i.e., the belief that our primary obligation is to ourselves and that self-ishness is a virtue) is disconnected from health care. This is true because most people enter health care as a profession because they want to help people.

Principles of Healthcare Ethics - Jones & Bartlett Learning

The importance of ethics in health care system. Ethics was applied in health care system, since ancient Egyptian times. A physician has moral obligations towards his patient based on physician -patient's relationship. The ethical principle of confidentiality confirms that patient can trust his health care provider not to disclose any information...

(PDF) The importance of ethics in health care system

It is concluded that an ethical code can establish important values and describe a common ethical context for health care but is of limited use in solving new and complex ethical problems.
