What Happened To The Bees This Spring? Part 1: Environmental and Biotic Factors. Randy Oliver ScientificBeekeeping.com. By now, most everyone has heard that honey bee colonies died in massive numbers this winter.

What Happened To The Bees This Spring - Scientific

Water quality refers to the chemical, physical, biological, and radiological characteristics of water. It is a measure of the condition of water relative to the requirements of one or more biotic species and or to any human need or purpose. It is most frequently used by reference to a set of standards against which compliance, generally achieved through treatment of the water, can be assessed.

Water quality - Wikipedia

The Dow Chemical Company, commonly referred to as Dow, is an American multinational chemical corporation headquartered in Midland, Michigan, United States, and the predecessor of the merged company DowDuPont. In 2017, it was the second-largest chemical manufacturer in the world by revenue (after BASF) and as of February 2009, the third-largest chemical company in the world by market ...

An update on recent advances to get genetically modified organisms (GMOs) labeled here in the US (22 years since France started the ball rolling!). On May 8, 2014, after years of hard work, Vermont successfully &

overwhelming passed a labeling initiative in BOTH houses, which is not contingent on having bordering states sign on (as is the case with CT & MA)!
