Epilepsy is a group of neurological disorders characterized by epileptic seizures. Epileptic seizures are episodes that can vary from brief and nearly undetectable periods to long periods of vigorous shaking. These episodes can result in physical injuries, including occasionally broken bones. In epilepsy, seizures tend to recur and, as a rule, have no immediate underlying cause.

Above is a simple atari formation with only one stone (the white triangled stone) in danger of being captured. If black plays a, the white piece is immediately captured and removed from the board. White can escape toward the center by playing at a herself, creating a string with three liberties. Below, another white group is in atari, but playing at b along the side will do no good, since Black ...
