

solving problems and making pdf

Definition. The term problem solving means slightly different things depending on the discipline. For instance, it is a mental process in psychology and a computerized process in computer science. There are two different types of problems, ill-defined and well-defined: different approaches are used for each.

- Hi, I'm Chris Croft, and welcome to this course on project problems. We're going to be looking at how can we avoid problems happening and what can we do if problems crop up. And you probably will get problems, if you're running a project, because if you think about it, the definition of a project is you're attempting to do something that has not been done before.
