In human resource development, induction training is a form of introduction for new employees in order to enable them to do their work in a new profession or job role within an organisation.. Training can be systematic or unsystematic training. Induction training is systematic training. The systematic model supplements natural learning with a systematic intervention that relates to the ...

Oral misoprostol as an induction agent is effective at achieving vaginal birth. It is more effective than placebo, as effective as vaginal misoprostol and vaginal dinoprostone, and results in fewer caesarean sections than oxytocin alone.. Where misoprostol remains unlicensed for the induction of labour, many practitioners will prefer to use a licensed product like dinoprostone.
