Overview. State of Fear is, like many of Crichton's books, a fictional work that uses a mix of speculation and real world data, plus technological innovations as fundamental storyline devices. The debate over global warming serves as the backdrop for the book. Crichton supplies a personal afterword and two appendices that link the fictional part of the book with real examples of his thesis.

Setting. We is set in the future. D-503, a spacecraft engineer, lives in the One State, an urban nation constructed almost entirely of glass, which assists mass surveillance. The structure of the state is Panopticon-like, and life is scientifically managed F. W. Taylor-style. People march in step with each other and are uniformed.
