Training to promote good behaviour. The science of morality may aim to discover the best ways to motivate and shape individuals. Methods to accomplish this include instilling explicit virtues, building character strengths, and forming mental associations. These generally require some level of practical reason.

Doctor's Note. This video is part of an experiment to find ways to appeal to those new to the site. So much of what I do is targeted towards those who already know the basics, but in the user survey about a thousand of you filled out a few weeks ago, many of you asked for me to take a step back, and do some videos targeted more towards those new to evidence-based nutrition.

The theory of evolution is a naturalistic theory of the history of life on earth (this refers to the theory of evolution which employs methodological naturalism and is taught in schools and universities). Merriam-Webster's dictionary gives the following definition of evolution: "a theory that the various types of animals and plants have their origin in other preexisting types and that the ...
