Behavioral Health Integration Checklist. The University of Washington's Advancing Integrated Mental Health Solutions (AIMS) Center developed a model of collaborative care for integrating behavioral health into primary care. The model is a team-based approach to care that includes primary care providers, practice-based care managers, and a psychiatric consultant.

INTRODUCTION. Children with Down syndrome have multiple malformations, medical conditions, and cognitive impairment because of the presence of extra genetic material from chromosome 21. 1,2 Although the phenotype is variable, there typically are multiple features that enable the experienced clinician to suspect the diagnosis. Among the more common physical findings are hypotonia, small ...
