Trade involves the transfer of goods or services from one person or entity to another, often in exchange for money. A system or network that allows trade is called a market. An early form of trade, barter, saw the direct exchange of goods and services for other goods and services. [need quotation to verify] Barter involves trading things without the use of money.

### **Trade - Wikipedia**

Trade barriers are government-induced restrictions on international trade. Most trade barriers work on the same principle: the imposition of some sort of cost (money, time, bureaucracy, quota) on trade that raises the price or availability of the traded products. If two or more nations repeatedly use trade barriers against each other, then a trade war results.
