2 Telfor Journal, Vol. 2, No. 1, 2010. Abstract " This paper presents the concept of green telecommunication networks and provides information about the power consumption within fixed line and wireless communication networks.

### **A Review of Energy Efficiency in Telecommunication Networks**

Communication in Australia through electronic means using devices such as telephone, television, radio or computer, and services such as the telephony and broadband networks have always been important in Australia given the 'tyranny of distance' with a dispersed population. Governments have driven telecommunication development and have a key role in regulation.
