Tompkins Products specializes in high volume contract manufacturing of screw machine and CNC products up to 2 inch diameter. We can also supply finishing operations including CNC turning & milling, drilling, tapping, broaching, grinding, heat treating, anodizing, plating, thread patching and insert plastic molding.

### **Precision machining, CNC turning & milling, broaching and**

Turning is a machining process in which a cutting tool, typically a non-rotary tool bit, describes a helix toolpath by moving more or less linearly while the workpiece rotates. The tool's axes of movement may be literally a straight line, or they may be along some set of curves or angles, but they are essentially linear (in the non mathematical sense).
