Poverty of the stimulus (POS) is the argument from linguistics that children are not exposed to rich enough data within their linguistic environments to acquire every feature of their language. This is considered evidence contrary to the empiricist idea that language is learned solely through experience. The claim is that the sentences children hear while learning a language do not contain the ...

The length of the bottom border of a cell is identical to the width of the cell. If you want to change that length, you either have to change the width of the cell (currently it's half of 90% of the page width minus the left and right margin), or... if you don't want to change the width of the cell, use cell events to draw the border using your own code.

java - How to change the width of a cell? - Stack Overflow

In the spirit of the new year and all things dealing with resolutions and lists, I submit below my first blog posting for the EduTech blog (checking off a resolution) with a discussion of 10 Global Trends in ICT and Education for 2010 and beyond (joining the crowded space of lists in this new year).
